Adonis De Paula

Web Developer

Combining a background in technical support with a growing passion for web development, a unique blend of skills and perspectives is offered. Focused on understanding user needs and effectively communicating complex ideas, thriving in dynamic environments and collaborating with diverse teams is a strength. Grounded in proactivity and a genuine desire to learn and grow, commitment to excellence in the field of web development is evident.

Objective

Aspiring to become a developer, my goal is to utilize my problem-solving skills, passion for innovation, and technical support experience to foster positive change and contribute meaningfully to a company's success. I am confident in my ability to help the company achieve its objectives and surpass expectations in a development role. I am eager to embrace new challenges and leverage my expertise to support the company's growth and success as a developer.
